Acknowledgements and Informed Consent of Treatments

To set clear expectations, improve communications, and help you get the best results in the shortest amount of time, please read each statement and initial each.

I instruct the chiropractor and/or nurse practitioner to deliver the care that, in his/her/their professional judgment(s), can best help me in the restoration of my health. I also understand that the treatment offered in this practice is based on the best available evidence and designed to reduce my symptoms and, specifically to chiropractic care, correct vertebral subluxations. Chiropractic is a separate and distinct healing art from medicine and does not proclaim to cure any named disease or entity.

_____ initial

Cervical/neck adjustments and stroke. Numerous studies show that there is no correlation between a cervical adjustment and a stroke; however, although extremely rare, patients have experienced a stroke following a visit to a chiropractor in the past. Dr. Woosley is highly trained and performs dozens of spinal adjustments each week and assures that all applicable medical history and a comprehensive review of your symptoms is done to establish a treatment plan that best suits your needs. Chiropractic manipulations are very safe and effective in the treatment of musculoskeletal conditions. Should you have any questions or concerns regarding this correlation, please feel free to address them prior to treatment.

_____ initial

Dry needling treatment. Dr. Woosley is trained in trigger point dry needling therapy. This treatment, loosely related to acupuncture, utilizes needles inserted into the muscle to help relieve pain and increase range of motion. As with all forms of medical treatments, there are potential risks and side effects, most notably and most rare being the accidental puncturing of a lung. Under skilled hands, this is not an issue. Other side effects include bruising, infection, and nerve injuries. Separate brochures are available for a more in-depth review into this treatment and its side effects/risks. Your acknowledgement here does not guarantee that this treatment will be performed and is used strictly as notification of this available treatment and its potential, although rare, side effects. **Please alert the provider if you have a disease transferrable through blood/bodily fluids. This treatment is NOT covered by health insurance companies and is \$20-60 in addition to co-payments, co-insurance, and deductibles.**

WOOSLEY CHIROPRACTIC, REHAB & WELLNESS

Charlton Woosley, Sr., DC

FINANCIAL POLICY

In an effort to maintain compliance with various state and federal regulations, managed care and preferred provider agreements, as well as billing and coding guidelines, we have adopted the following financial policies. Our clinic has established a single fee schedule that applies to all patients for each service provided. You may be entitled to a network or contractual discount under the following circumstances:

- If we are a participating provider in your insurance plan, or if your out-of-network insurance plan has coverage that will benefit you. Your benefits will be verified by a staff member, and we will be happy to answer any questions you may have regarding your insurance benefits.
- If you are covered by a State or Federal program with a mandated fee schedule (e.g. Medicare). For Medicare patients, coverage is limited to spinal manipulation ONLY for chiropractic patients, with non-covered services provided at a discount. Medicaid/TennCare does not cover chiropractic, and the prompt payment fee schedule would apply (see below).
- If you are eligible and choose a payment plan that allows for "prompt payment" discounts (see below). Fees on this prompt payment fee schedule must be paid at time of service in order to receive this discount.

As part of our compliance plan, as of May 15, 2017, our office will be unable to extend any type of discounts other than those listed on this financial policy.

NO SHOW/CANCELLATION POLICY

Beginning in October 2021, our office has adopted a no-show fee of \$25 for missed appointments. We strongly encourage patients to add scheduled appointments to your phone's calendar as an appointment reminder, or we may give you appointment reminder cards upon scheduling your appointments. We also appreciate cancellations to appointments with at least a 24 hours' notice when possible. We understand that under certain circumstances, cancellations must be made same day and this fee can be waived at staff's discretion; however, no-shows will be charged \$25 upon arriving for their next scheduled appointment prior to their appointment being completed.
